LIGHTING

Highlight your booth and your products

Our kits are all-inclusive.
Pick up the best package for your space.

All our kits include the slings overhead electrical cables and installation.
Please, keep in mind that the power supply is not included in the kit. The electrical cables will be plugged on the electrical box on the ground, so it has to have the sufficient Kw.

Lighting kit 13

4x6 m structure

8 JADE 200W spotlights

8 Studio Cob 160W spotlights

Power supply: 3 kW

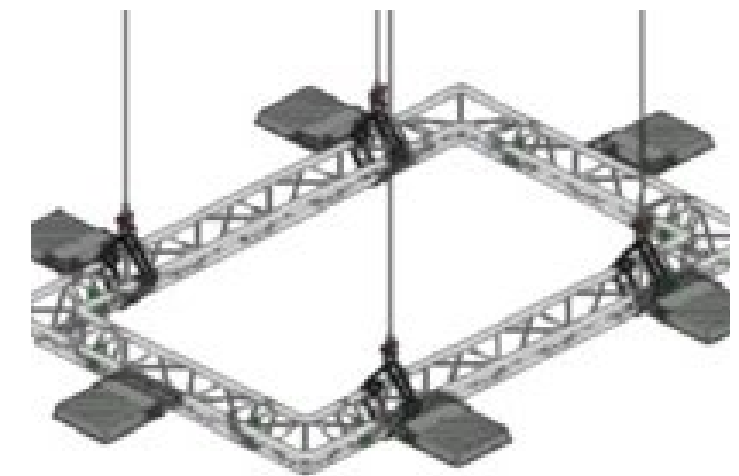

Lighting kit 14

2x4 m structure

6 JADE 200W spotlights

Power supply: 1,5 kW

Circular Kits

Lighting kit 15

6 m diameter structure

5 JADE 200W spotlights

5 Studio Cob 160W spotlights

Power supply: 2 kW

Lighting kit 16

8 m diameter structure

6 JADE 200W spotlights

12 Studio Cob 160W spotlights

Power supply: 3,5 kW

Do you need a very precise and personalized kit ?

Don't hesitate to contact us for on-demand kits !

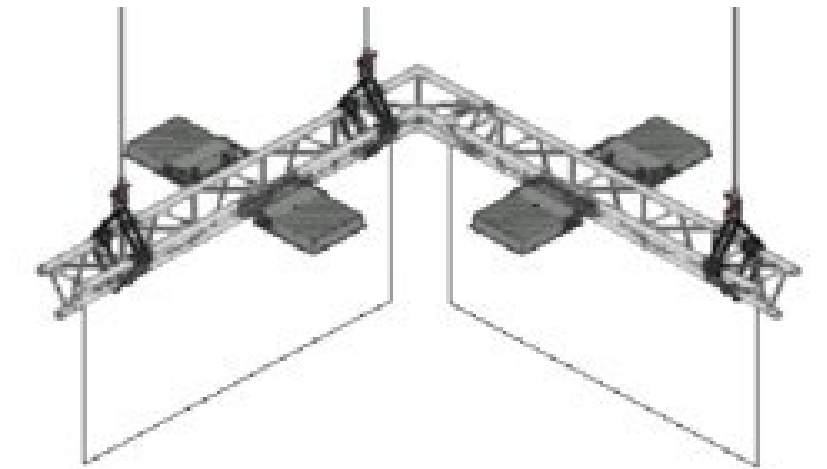

3 Lighting kits with banner

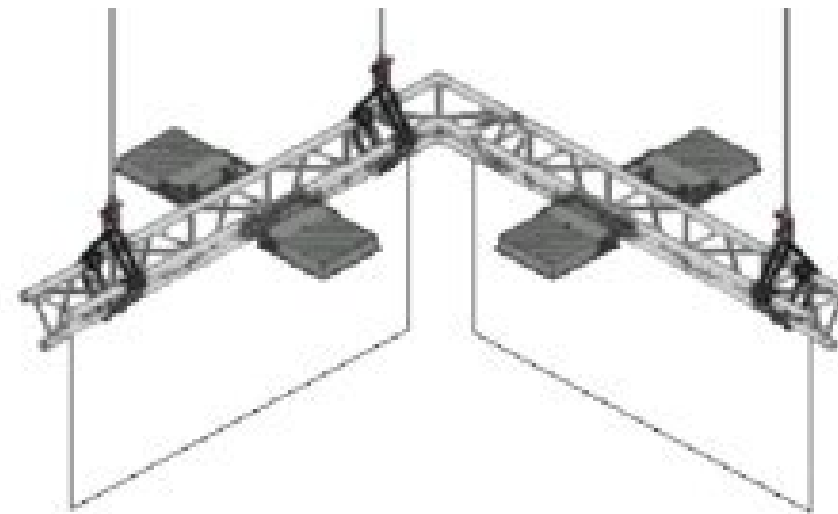

Lighting kit 6 :

2,5m x 2,5m L shaped structure
4 JADE 200W spotlights
2 double sided banner 2x1 m
Power supply : 1 kW

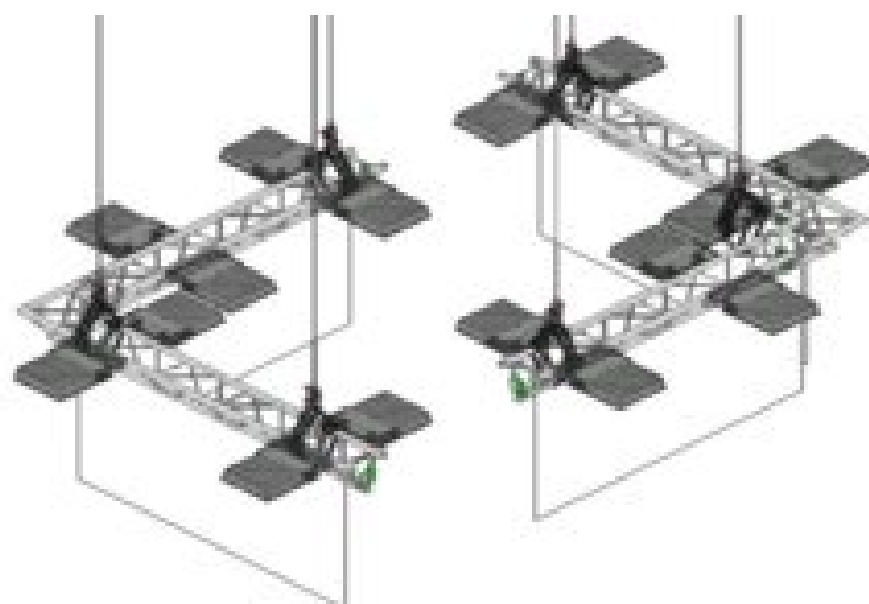

Lighting kit 8 :

3,5m x 3,5m L shaped structure
4 JADE 200W spotlights
2 double sided banner 3x1 m
Power supply : 1 kW

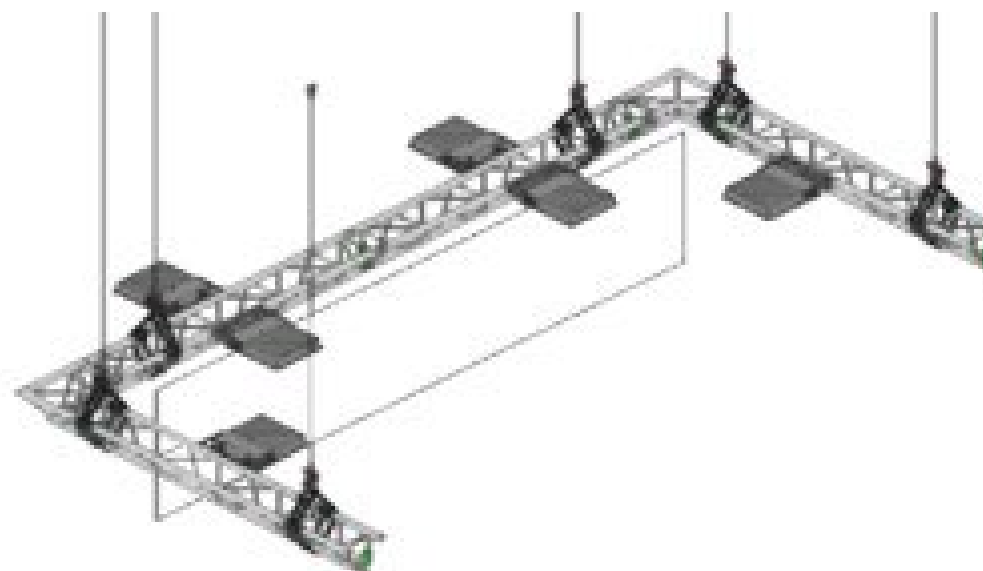

Lighting kit 9 :

L shaped double structure 3,5 m x 3,5 m
8 JADE 200W spotlights
4 double sided banner 3x1 m
Power supply : 2 kW

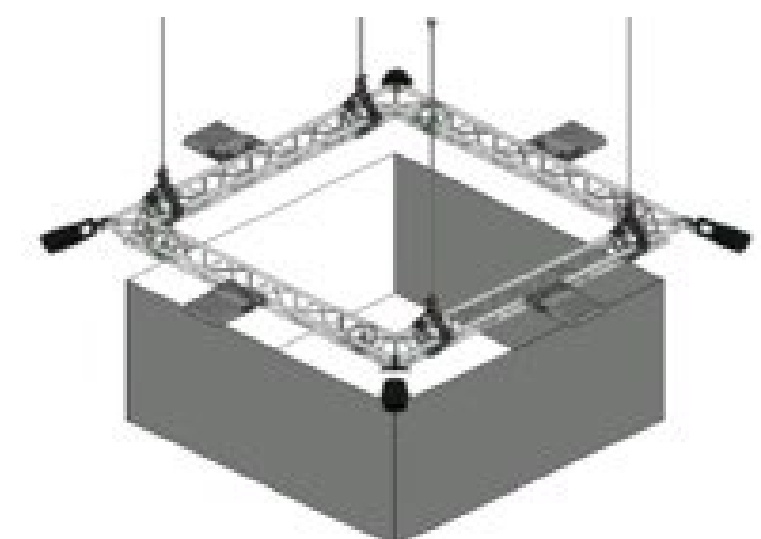

Lighting kit 10 :

U shaped double structure 5 m x 2,5 m
6 JADE 200W spotlights
1 double sided banner 4x1 m
Power supply : 1,5 kW

Lighting kit 12 :

Square structure 3 m x 3 m
4 JADE 200W spotlights
4 Studio Cob 160W spotlights
1 sign module square 2x2 m, 1 m high
Power supply : 2 kW

SIGNAGE

Keep a high profile for instant visibility

+

3 possibilities for overhead suspension: beneath a support truss, support cables or a rotating unit!

Linear module

1 m long x 1 m high one side or double-sided
2 m long x 1 m high one side or double-sided
3 m long x 1 m high one side or double-sided
4 m long x 1 m high one side or double-sided

Triangular module*

3 panels 2 m long x 1 m high

Square module*

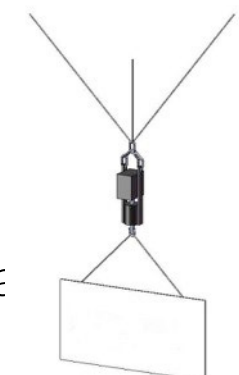

4 panels 2 m long x 1 m high

*Single-sided canvas, not recoverable,
Source file must be supplied: vectorised EPS (logo) and high quality JPG (image)
Weight bar and installation included

Rotating kit :

Rotating motor to hang and turn a 4m signage (maxi) (max weight allowed 100kg)

VIDÉO

Bring life to your booth and show your products with dynamism

+

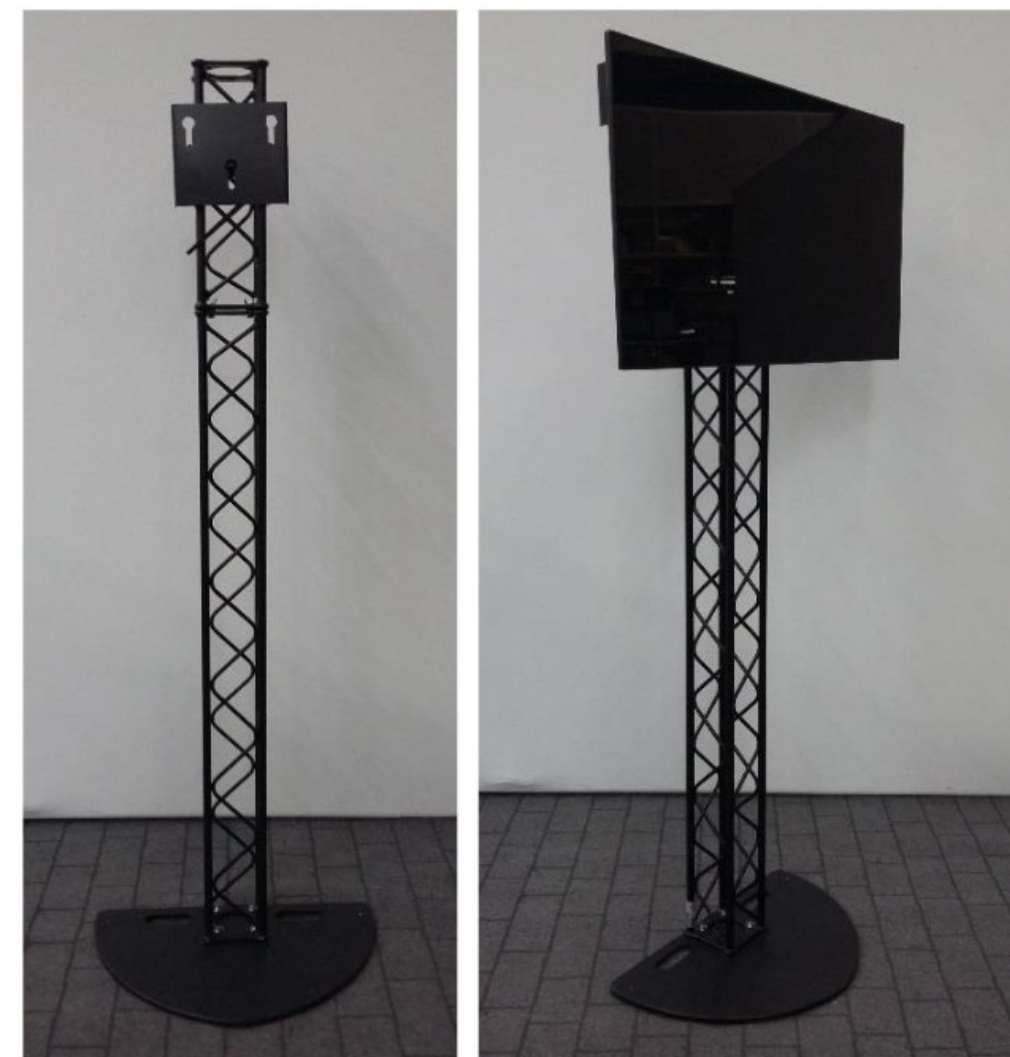

Wall mounted or suspended screens also available. Prices on demand.

LCD screen : eyecatching!

Feet standing screens on which you can install your peripheral device (DVD player, laptop, USB stick).

Available sizes: (prices for feet standing screens only)

- 43"
- 49"
- 55"

Non-contractual picture

We provide suspension system for you to create your own overhead display

Slings:

Essential for suspending equipment such as lighting truss or signage.

This 6 mm steel cable is attached to one or more framework points using steel shackles and ends in a loop. The number of suspension points depends on the weight and size of the equipment to be suspended.

Power supply on support cables:

A power supply line can be set between the support cables and the switch box on the ground to power the spotlights. Choose the plug you need at the end of the cable.

- 16A (max 3kW)

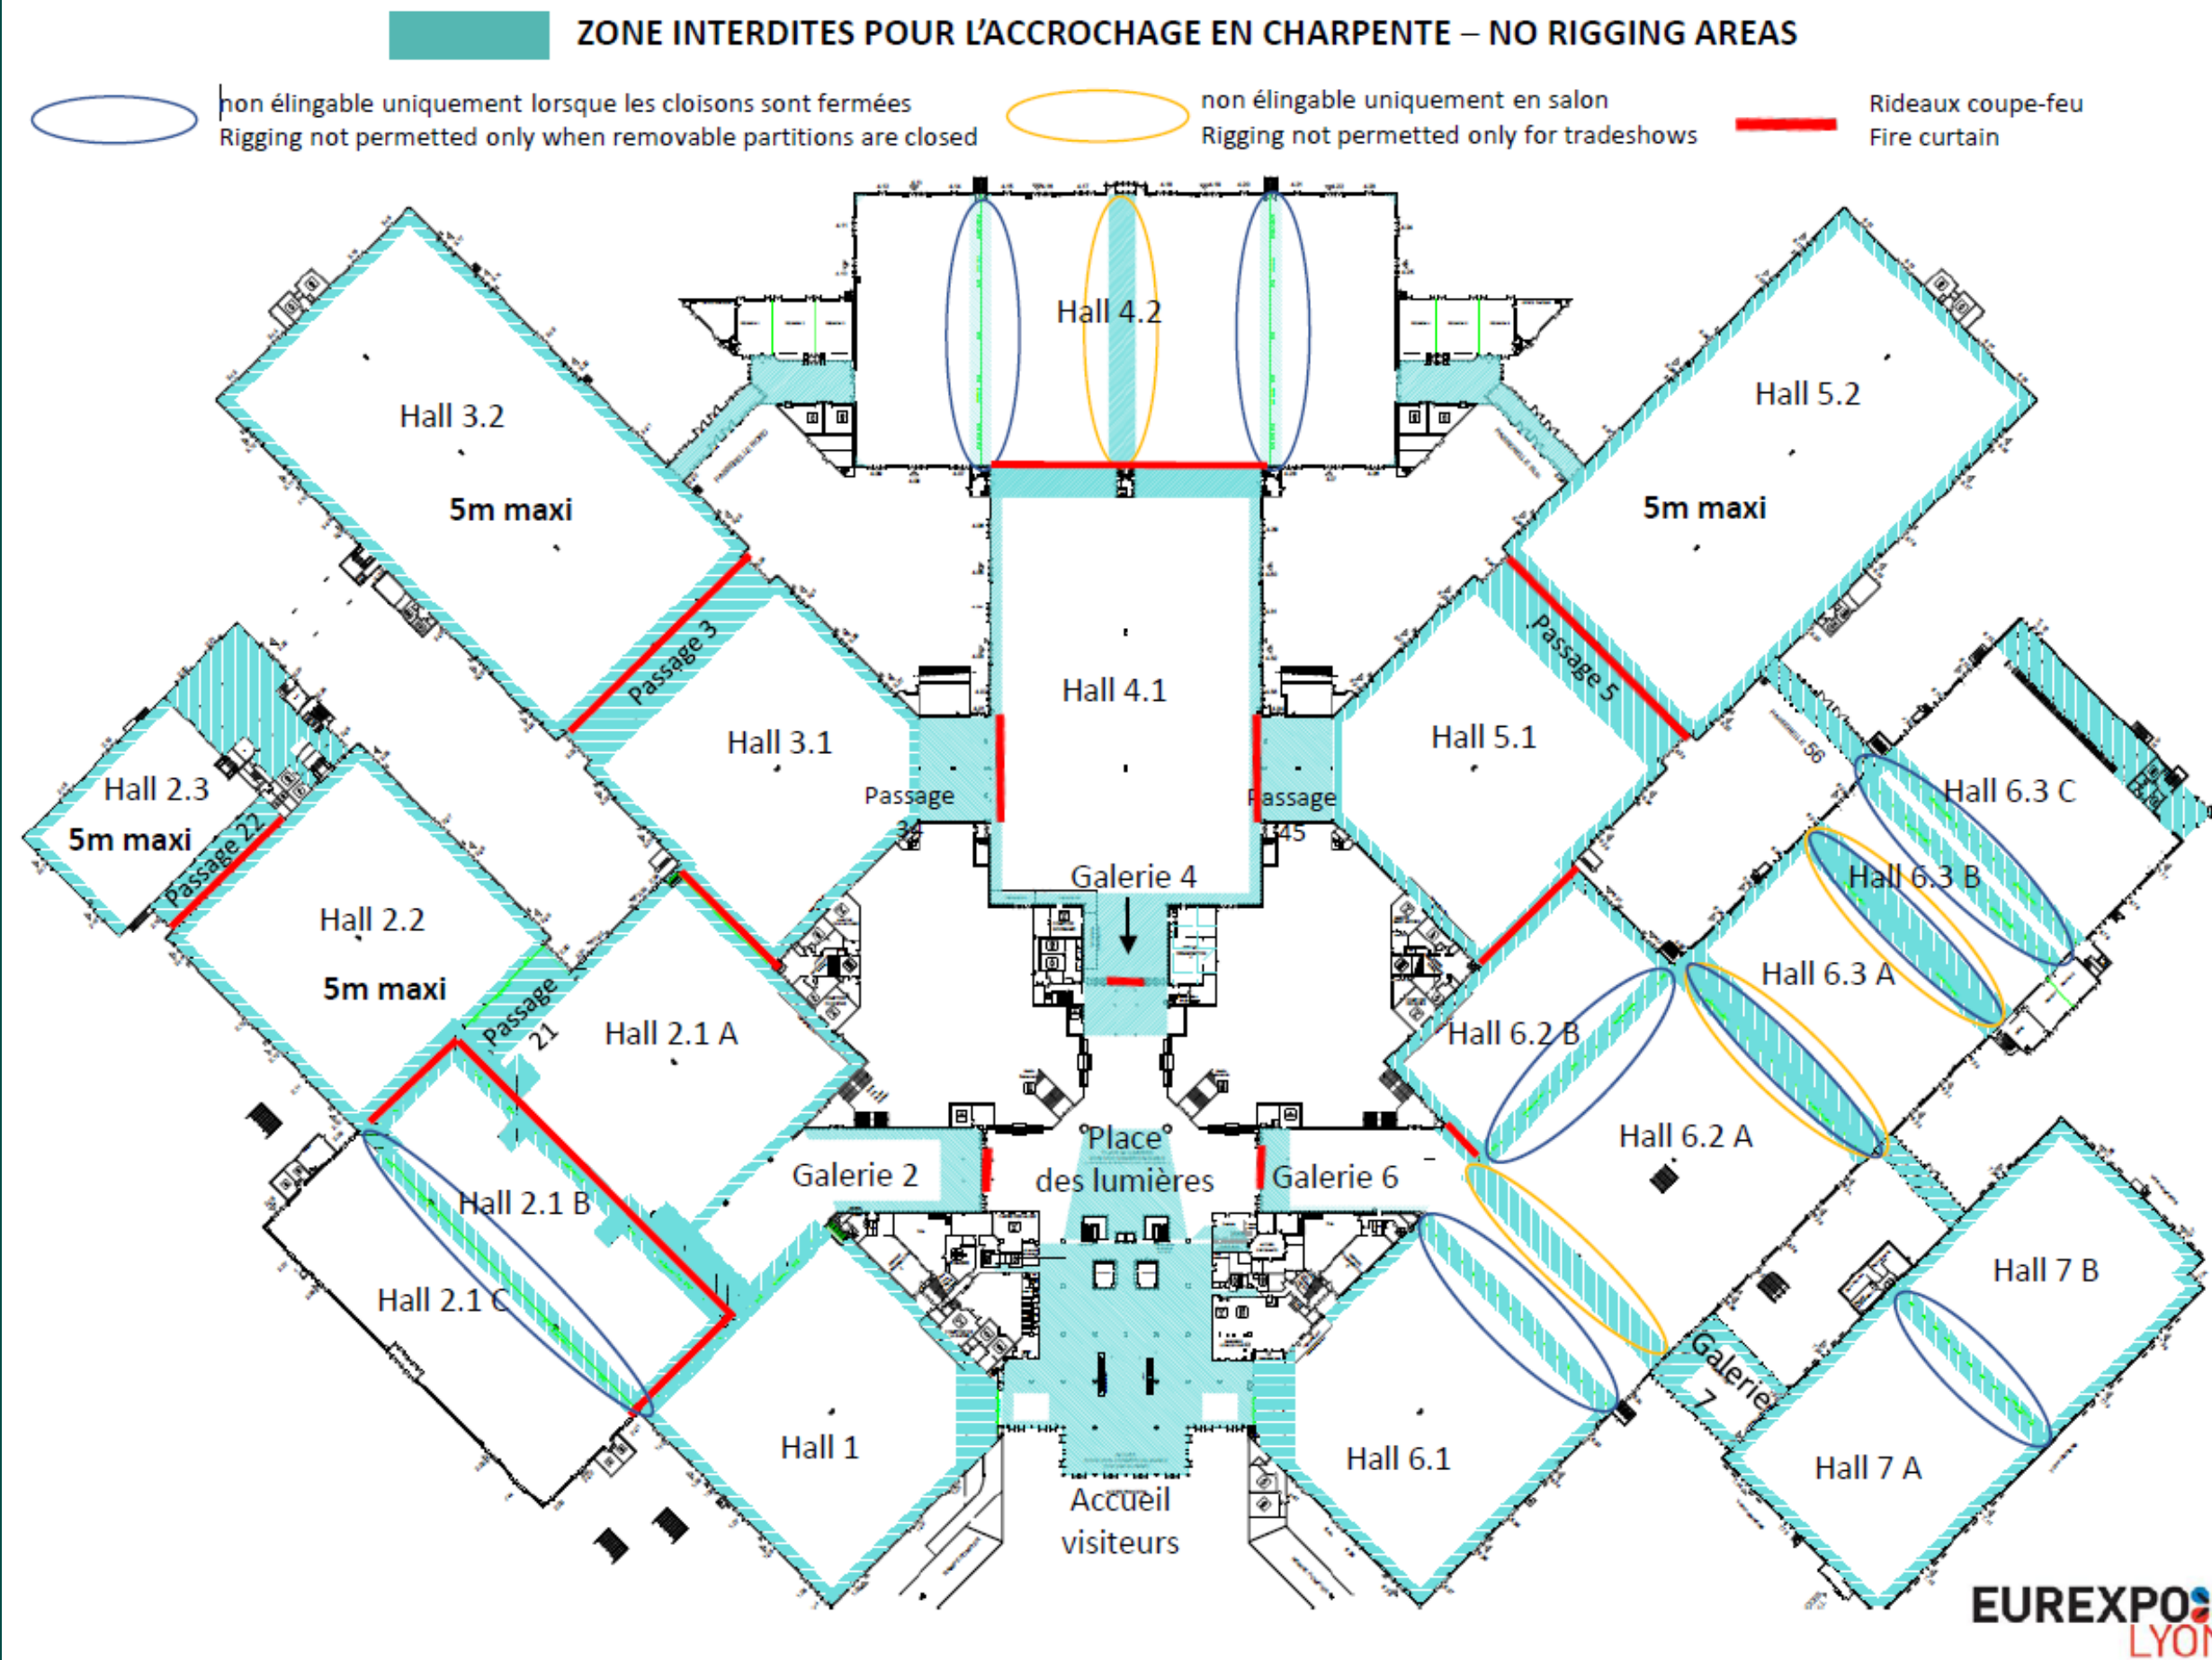

! RESTRICTIONS

Every project is subject to validation.
Its feasibility is not guaranteed.

! Electrical connection :

- Overhead electrical cables are supplied without being connected to the electric box, if ordered out of a lightning kit or without spotlights.

No-rigging zones :

Precise dimensions of booth : _____ m x _____ m

Complete this document legibly in black ink and return it with your order form.

BOOTH N°: _____
